1 CREATE A GITHUB REPO
W13-QUIZ

2   CLONE IT + Flutter create
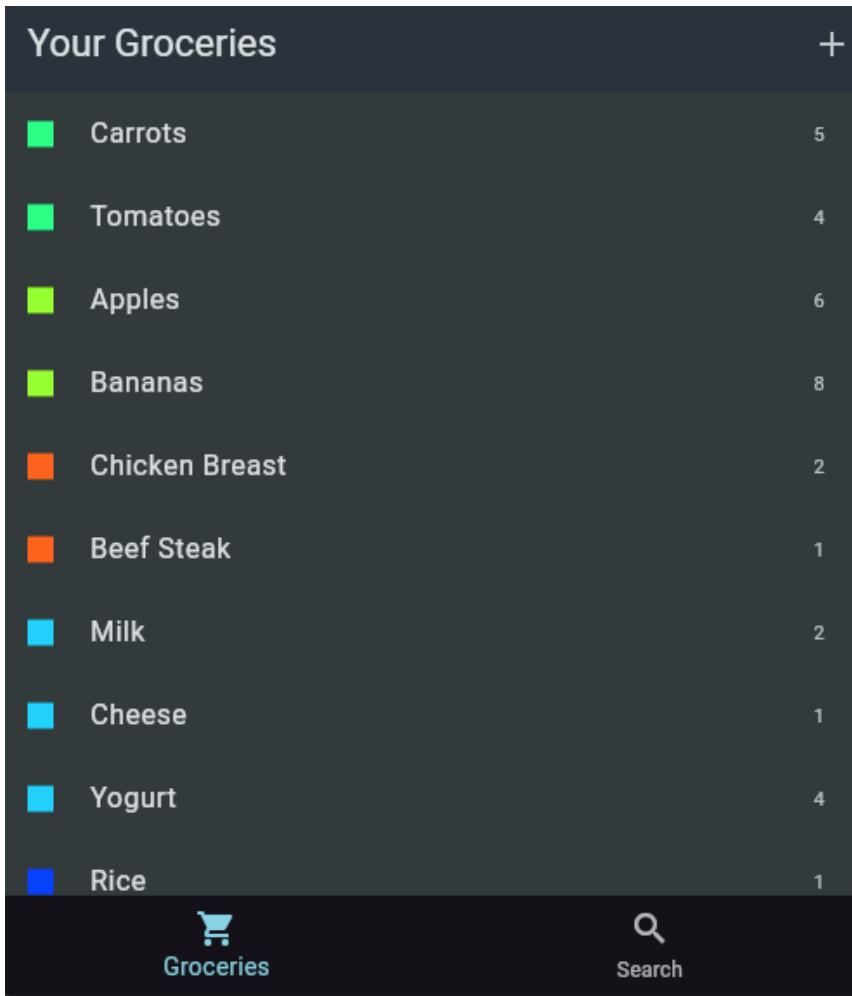

2 UNZIP THE START CODE (/lib)

3 - COMIMIT /PUSH START CODE
commit message = start code

4 – START YOUR WORK
30 min

You can use any code you have on your computer
But no internet, no AI

# ✓ 1- Create **2 tabs** inside on the GroceryList view

1 tab displaying all groceries

1 tab with a filter on groceries name

Icons.local_grocery_store

Icons.search
